- The City of Sierra Vista is offering the Toilet Rebate Program as part of our ongoing water conservation efforts. By replacing existing toilets with EPA WaterSense approved models not exceeding 1.28 gallons per flush (gpf), a rebate of \$50-100 will be provided for each toilet replaced, limit two per household.
- The gpf of toilets can often be found stamped on the toilet itself.
- Tenants/Renters who wish to participate should contact their property owner/manager. Rebates require the consent of the property owner on the application itself. It is the responsibility of the owner to insure proper installation.
- The City recommends that the installation be performed by a licensed, qualified plumber (see back page for list); and sewer line(s) be cleaned at the time of installation, if they have not been cleaned within the previous twelve months.

Water Conservation Measure	Rebate Amount
